

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. – 30. (cancelled)

31. (currently amended) A textile comprising cotton fibers, wherein the textile comprises from 1% to 30% by weight of cotton fibers, based on a total weight of the textile, and wherein the cotton fibers are impregnated with a preparation comprising ethyl 3-(N-n-butyl-N-acetylamino)propionate and from 0.1% to 20.0% by weight of one or more anti-inflammatory substances, based on a total weight of the preparation.

32. (previously presented) The textile of claim 31, wherein the textile further comprises from 9% to 80% by weight of viscose fibers, and from 19% to 90% by weight of polyester fibers, each based on a total weight of the textile.

33. (previously presented) The textile of claim 31, wherein the textile comprises a nonwoven material.

34. (previously presented) The textile of claim 33, wherein the textile has an average thickness of from 0.4 mm to 2 mm.

35. – 38. (cancelled)

39. (previously presented) A textile comprising cotton fibers, wherein a concentration of cotton fibers in the textile increases toward a surface of the textile, and wherein the cotton fibers are impregnated with a preparation comprising ethyl 3-(N-n-butyl-N-acetylamino)propionate.

40. (previously presented) The textile of claim 39, wherein the textile comprises from 1% to 30% by weight of cotton fibers, based on a total weight of the textile.

41. (previously presented) The textile of claim 40, wherein the textile further comprises from 9% to 80% by weight of viscose fibers, and from 19% to 90% by weight of polyester fibers, each based on a total weight of the textile.

42. (previously presented) The textile of claim 39, wherein a surface of the textile has a cotton concentration of up to 30 % by weight and an inside of the textile has a cotton concentration of up to 10 % by weight.

43. (previously presented) The textile of claim 42, wherein the textile comprises a nonwoven material.

44. (previously presented) The textile of claim 39, wherein the textile has an average thickness

of from 0.4 mm to 2 mm.

45. (previously presented) The textile of claim 39, wherein a degree of impregnation of the textile is from 2.0 g/cm to 10.0 g/cm.

46. (previously presented) The textile of claim 39, wherein the preparation comprises from 1.0% to 40% by weight of ethyl 3-(N-n-butyl-N-acetylamino)propionate, based on a total weight of the preparation.

47. (previously presented) A textile comprising cotton fibers, wherein the cotton fibers are impregnated with a preparation comprising ethyl 3-(N-n-butyl-N-acetylamino)propionate and wherein a degree of impregnation of the textile is from 2.0 g/cm to 10.0 g/cm.

48. (previously presented) The textile of claim 47, wherein the preparation comprises from 1.0% to 40% by weight of ethyl 3-(N-n-butyl-N-acetylamino)propionate, based on a total weight of the preparation.

49. (previously presented) A method of repelling insects from human skin, wherein the method comprises rubbing the human skin with a textile which comprises cotton fibers, the cotton fibers being impregnated with a preparation which comprises ethyl 3-(N-n-butyl-N-acetylamino)-propionate.

P29860.A04

50. (previously presented) A cotton fiber impregnated with a preparation which comprises from 1.0% to 40% by weight of ethyl 3-(N-n-butyl-N-acetylamino)propionate, based on a total weight of the preparation.

51. (new) The method of claim 49, wherein the textile comprises from 1% to 30% by weight of cotton fibers, based on a total weight of the textile.

52. (new) The method of claim 51, wherein the textile further comprises from 9% to 80% by weight of viscose fibers, and from 19% to 90% by weight of polyester fibers, each based on a total weight of the textile.

53. (new) The method of claim 49, wherein the textile comprises a nonwoven material.

54. (new) The method of claim 49, wherein the textile has an average thickness of from 0.4 mm to 2 mm.
